## **SECTION II - RISK FACTORS**

*An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Letter of Offer, including the risks and uncertainties summarized below, before making an investment in our Equity Shares. The risks described below are relevant to the industries our Company is engaged in, our Company and our Equity Shares. To obtain a complete understanding of our Company, you should read all the sections in this Letter of Offer including all the financial and statistical information contained in this Letter of Offer.*

*If any one or more of the following risks as well as other risks and uncertainties discussed in the Letter of Offer were to occur, our business, financial condition and results of our operation could suffer material adverse effects and could cause the trading price of our Equity Shares and the value of investment in the Equity Shares to materially decline which could result in the loss of all or part of investment. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is therefore subject to a legal and regulatory environment that may differ in certain respects from that of other countries.*

*This Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including the considerations described below and elsewhere in this Letter of Offer. These risks are not the only ones that our Company face. Our business operations could also be affected by additional factors that are not presently known to us or that we currently consider to be immaterial to our operations. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify financial or other implication of any risks mentioned herein.*

### **Materiality**

*The Risk factors have been determined on the basis of their materiality, which has been decided on the basis of following factors:*

- 1. Some events may not be material individually but may be material when considered collectively.*
- 2. Some events may have an impact which is qualitative though not quantitative.*
- 3. Some events may not be material at present but may have a material impact in the future.*

### **INTERNAL RISK FACTORS**

#### **BUSINESS RELATED RISK**

- 1. *Our continued operations are critical to our business and any shutdown of our manufacturing unit may adversely affect our business, results of operations and financial condition.***

Our manufacturing unit is situated at Kukkuwada Village, Davangere – 577 525, Karnataka, India. As a result, any local social unrest, natural disaster or breakdown of services and utilities in these areas could have material adverse effect on the business, financial position and results of our operations. Our current manufacturing unit is subject to operating risks, such as breakdown or failure of equipment, power supply or processes, reduction or stoppage of water supply, performance below expected levels of efficiency, obsolescence, natural disasters, industrial accidents and the need to comply with the directives of relevant government authorities. In the event, we are forced to shut down our manufacturing unit for a prolonged period; it would adversely affect our earnings, our other results of operations and our financial condition as a whole. Spiraling cost of living around our unit may push our manpower costs in the upward direction, which may reduce our margin and cost competitiveness.

- 2. *Our business is subject to seasonal variations that could result in fluctuations in our results of operations.***

Our business is seasonal in nature and as a result, our operating results may fluctuate. Since our business is influenced by the availability of our basic raw material, i.e. sugarcane, our production schedules are operational only according to such availability. For example, during the crushing season the majority of our sugar production takes place and during the non-crushing season, it does not therefore our sugar production is highly affected. Further, other seasonal factors such as irrigation, seed quality, area of sugarcane production and amount of rainfall also play a role in determining the quantity and quality of sugarcane produce. Consequently, the results of one reporting period may not be necessarily comparable with the preceding, succeeding or corresponding reporting periods. Our revenues recorded during planting and harvesting seasons are typically lower or even in losses as compared to revenues recorded during the crushing season. During periods of lower sugar production, we continue to incur substantial operating expenses in connection with day-to-day operations, employees' salaries, miscellaneous maintenance cost and among other things, product promotion expenses which are not

reduced significantly during such periods, while our revenues remain reduced. We have experienced, and expect to continue to experience, significant variability in our total revenue, operating cash flows, operating expenses and net revenues on a seasonal basis and any adverse changes may affect our business, results of operations, cash flows and financial condition.

**3. *Sugarcane is the principal raw material used for the production of sugar. Our business depends on the availability of sugarcane and any shortage of sugarcane may adversely affect our business and results of operations.***

We do not own land for growing sugarcane and rely entirely on purchasing our sugarcane from independent farmers both within and outside our designated area. Since the deregulation of the sugar industry, farmers in the villages surrounding our manufacturing facility are no longer obligated to sell their sugarcane to us, making it essential to maintain positive relationships with them to ensure they choose to sell their produce to us. Additionally, we aim to foster relationships with farmers in other, more distant villages to secure a sufficient supply of sugarcane during the crushing season.

Farmers within our designated area are free to grow other crops instead of sugarcane, which could lead to a shortage of our raw material if they choose to do so. Furthermore, if we face a significant increase in demand or need to replace our current suppliers, there is no guarantee that we will be able to meet this demand or find suitable replacements in a timely manner or at reasonable costs.

Our sugar production is also vulnerable to adverse weather conditions, crop diseases, and pest infestations, which can impact sugarcane yields and sucrose content. The quantity and quality of sugarcane depend on factors such as the variety of sugarcane, disease presence, weather conditions (like rainfall and temperature), and seasonal variations. Extreme weather events, such as floods or droughts, can disrupt the supply and pricing of sugarcane. There is no assurance that weather patterns, crop diseases, or the choice of sugarcane varieties will not negatively impact our sugar recovery rates. Any decrease in sugar recovery could have a significant adverse effect on our business and financial performance.

**4. *Our Company has experienced insufficient capacity utilization of our manufacturing unit in the past and may experience the same in the future as well, which could have an adverse impact on our business, results of operations and financial condition.***

We have experienced instances of insufficient capacity utilization of our manufacturing unit in the past. The details of the capacity utilization of our manufacturing unit in the preceding three years has been provided below:

	Sugar	
Financial Year	Installed Capacity	Percentage of utilization (%)
2022-2023	4,750 TCD	70.00
2023-2024		66.97
2024-2025		46.78

	Power	
Financial Year	Installed Capacity	Percentage of utilization (%)
2022-2023	24.45MW per day	74.50
2023-2024		50.52
2024-2025		53.26

	Ethanol	
Financial Year	Installed Capacity	Percentage of utilization (%)
2022-2023	65 KLPD	99.96
2023-2024		77.78
2024-2025		80.07

We cannot assure you that we will not experience insufficient capacity utilization in the future or that such instances would not adversely affect our business, results of operations and financial condition.

**5. *The improper handling, processing or storage of raw materials or products, or spoilage of and damage to such raw materials and products, or any real or perceived contamination in our products, could subject us to regulatory and legal action, damage our reputation and have an adverse effect on our business, results of operations and financial condition.***

The products that we manufacture or process are subject to risks such as contamination, adulteration and product tampering during their manufacture, transport or storage. We face inherent business risks of exposure to product liability or recall claims in the event that our products fail to meet the required quality standards or are alleged to result in harm to customers. Our products like sugar may be subject to contamination which may affect the health of the final consumer. These contaminations may be human induced or natural, and, as a result, there is a risk that they could affect our processed sugar or other products. There is a potential for deterioration of our sugar products as a result of improper handling at the processing, packing, storing or transportation levels, which may adversely affect our customer image. While there have been no such instances in the past which triggered regulatory and legal action against our Company due to the improper handling, processing or storage of raw materials or products etc., however, we cannot assure that such instances might not occur in future

Such risks may be controlled, but not eliminated, by adherence to good manufacturing practices and finished product testing. We have little, if any, control over proper handling once our products are shipped to our customers. We face the risk of legal proceedings and product liability claims being brought by various entities, including consumers, distributors and government agencies for various reasons including for defective or contaminated products sold or services rendered. If we experience a product recall or are a party to a product liability case, we may incur considerable expense in litigation. We cannot assure that we will not experience product recalls or product liability losses in the future. Further, we do not have any product liability insurance cover and getting such an insurance afresh will require additional cost. Any product recall, product liability claim or adverse regulatory action may adversely affect our reputation and brand image, as well as entail significant costs in excess of available insurance coverage, which could adversely affect our reputation, business, results of operations and financial condition.

**6. *We depend on a few customers of our products, for a significant portion of our revenue, and any decrease in revenues or sales from any one of our key customers may adversely affect our business and the results of operations.***

For the year ending March 31, 2025, sales from our top 10 customers accounted for 23.76% of total operating sales. In comparison, during Fiscal Year 2024 and Fiscal Year 2023, sales from the top 10 customers represented 28.93% and 28.59% of our revenue from operations, respectively. Our business operations are highly dependent on our customers and the loss of any of our customers from any industry which we cater to may adversely affect our sales and consequently on our business and results of operations.

While we typically have long-term relationships with our customers, we have not entered into long term agreements with our customers and the success of our business is significantly dependent on us maintaining good relationships with our customers and suppliers. The actual sales by our Company may differ from the estimates of our management due to the absence of long-term agreements. The loss of one or more of these significant or key customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, results of operations, financial condition and cash flows. We cannot assure you that we will be able to maintain historic levels of business and/or negotiate and execute long-term contracts on terms that are commercially viable with our significant customers or that we will be able to significantly reduce customer concentration in the future.

Further, neither do we have any exclusive agents, dealers, distributors nor have we entered into any agreements with any of the market intermediaries for selling or marketing our products. If there occurs any change in the market conditions, requirements of our customers, or if we fail to identify and understand evolving industry trends, preferences or fail to meet our customers' demands, it might have a direct impact on our revenue and customer base. The inability to procure new orders on a regular basis or at all may adversely affect our business, revenues, cash flows and operations.

**7. *Our Company is involved in certain legal and other proceedings. We cannot assure you that our Company will be successful in any of these legal actions. Any adverse outcome in such proceedings may affect our business, results of operations and financial condition.***

Our Company is involved in several legal proceedings that, if determined against our Company, could have an adverse effect on our business, results of operations and financial condition. There are outstanding legal proceedings involving our Company. These proceedings are pending at different levels of adjudication before various judicial authorities, from which further liability may arise. The amounts involved in these proceedings have been summarized to the extent ascertainable and quantifiable. Decisions which are adverse to our interests in any of the aforesaid material outstanding legal proceedings or any other proceedings involving our Company may have an adverse effect on our business, results of operations and financial condition. If the courts or tribunals or any government or statutory authorities rule against our Company, we may face monetary and/or reputational losses and if required, may have to make provisions in our financial statements, which could increase our expenses and our liabilities.

A summary of outstanding legal proceedings involving our Company as on the date of this Letter of Offer is set forth in the table below:

Name	Proceedings involving criminal liability	Tax proceedings	Proceedings before regulatory authorities involving violations of statutory regulations	Matters involving economic offences where proceedings have been initiated	Civil proceedings where the amount involved is equivalent to or in excess of the Materiality Threshold	Other pending matters which, if they result in an adverse outcome, would materially adversely affect the operations or the financial position	Aggregate amount involved (₹ in Lakhs)

**8. Our business is working capital intensive. If we are unable to generate sufficient cash flows to allow us to make required payments on our debt or fund working capital requirements, there may be an adverse effect on our results of operations.**

Our business is working capital intensive including fund requirement for payment for sugarcane purchased during the crushing season. Hence, a major portion of our working capital is utilised towards debtors and inventory. For the year March 31, 2025, our debtors accounted for 12.14% of the total net worth. In comparison, for the fiscal years ended 2024 and 2023, debtors represented 5.42% and 6.84% of the total net worth, respectively. Similarly, our inventories for the year ended March 31 2025, stood at 41.31% of the total net worth, while for the fiscal years ended 2024 and 2023, inventories represented 35.86% and 29.34%, respectively. The results of operations of our business are dependent on our ability to effectively manage our inventory (raw material and finished goods) and trade receivables. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and purchase new inventory accordingly. However, if our management misjudges expected customer demand, it could cause either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture or purchase, we may be required to write down our inventory or pay our suppliers without new purchases, or create additional vendor financing, all of which could have an adverse impact on our income and cash flows. To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if our management fails to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance costs which will adversely impact our profitability. Our inability to maintain sufficient cash flow, credit facility and other sourcing of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. In the event that we are not able to recover dues from trade receivables or are unable to utilise or sell our inventory, we may not be able to maintain our sales level which could adversely affecting our financial health. If this situation persists, we may not be able to pay our lenders / creditors and we may be forced to go for Corporate Debt Restructuring (CDR) which may result in adversely affecting our operations and future prospects.

**9. A part of the Issue proceeds will be utilized by our Company for part- repayment of Bank loan or for adjustment against the unsecured loans availed from one of our Promoters, Ganesh Shivashankarappa Shamanur.**

One of the Objects of this Issue is to adjust the loan availed from one of our Promoters, Ganesh Shivashankarappa Shamanur, against his subscription under the Rights Issue (both towards his entitlement, including application, if any, for additional equity shares, and for the shares that may be renounced in his favour by other Promoters or other persons) his Rights Entitlement in the present Rights Issue aggregating upto Rs. 4,425 lakhs. These unsecured loans have been utilized by our Company towards business requirements. For further details, please see the chapter titled “Objects of the Issue” beginning on page 44 of this Letter of Offer.

**10. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on various factors, some of which are beyond our control.**

Our Company proposes to utilize the Net Proceeds for the Issue towards repayment of Bank loans, adjustment of

outstanding unsecured loan against the Rights Entitlement of Mr. Ganesh Shivashankarappa Shamanur and general corporate purpose. Our funding requirements and deployment of the Net Proceeds are based on internal management estimates based on current market conditions and have not been appraised by any bank or financial institution or other independent agency. Further, in the absence of such independent appraisal, our funding requirements may be subject to change based on various factors which are beyond our control. The deployment of Net Proceeds will be in compliance with all applicable laws and regulations. For details, see “Objects of the Issue” beginning on page 44.

**11. Our Company has experienced negative cash flow in the past and may continue to do so in the future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations.**

We have experienced negative cash flows from our investing activities in some past years which can be seen in the below table:

Particulars	March 31, 2025	March 31, 2024	March 31, 2023
Net Cash Flow from Operating Activities	(3,013.21)	(2393.65)	5145.74
Net Cash Flow used in Investing Activities	(315.15)	(2288.89)	(2014.78)
Net Cash used in Financing Activities	768.58	1915.36	(6524.61)

The negative cash flow from investing activities was primarily due to the acquisition of plant and equipment (including capital work-in-progress) and capital advances.

**12. In the past, there have been instances of delayed or erroneous filing of certain forms which were required to be filed as per the reporting requirements under the Companies Act, 1956 and Companies Act, 2013 to RoC by our Company.**

In the past, there have been certain instances of delay in filing of statutory forms as per the reporting requirements under the Companies Act, 1956 and Companies Act, 2013 with the RoC, which have been subsequently filed by payment of an additional fee as specified by RoC by our Company. No show cause notice in respect to the above has been received by our Company till date and except as stated in this Letter of Offer, no penalty or fine has been imposed by any regulatory authority in respect to the same. The occurrence of instances of delayed or erroneous filings in future may impact our results of operations and financial position. Further, our Company is unable to locate some of the regulatory filings made with the RoC and/or secretarial records filed by the Company prior to 2006 including the forms filed for incorporation of our Company. The details of the instances of delayed filings for the past 3 years are :

**13. Bagasse, which is derived from sugarcane, and other biomass based fuels are the basic raw materials for our co-generation business. Any constraint in the availability or fluctuations in the price of sugarcane may affect the current or future capacity utilisation of the co-generation plant.**

Bagasse and other biomass based products such as rice husk, cane trash, mustard stalk/husk woodchips, are raw materials for the co-generation business. Availability of the primary fuel, Bagasse is dependent on the supply of sugarcane. Further, these raw materials are also used in some industries such as paper and paperboard. The availability of Bagasse and other

biomass based raw materials for co-generation is subject to changes in the consumption patterns and other market forces in such other industries. Additionally, other industries may offer higher prices which may divert the supply of externally sourced raw material, which may in turn adversely affect the availability or pricing of these raw materials could impact our co-generation business and our profitability. Any constraint in the availability of sugarcane may affect the availability of Bagasse and consequently, the business of our co-generation plant.

***14. Our entire business operations are based out of a single manufacturing unit at Karnataka. Further, our manufacturing unit, our warehouses, godowns and all our facilities are currently located in one geographical area. The loss of, or shutdown of, our operations at this manufacturing or any disruption in the operation of our warehouses will adversely affect our business, financial condition and results of operations.***

Our manufacturing unit and all other facilities are based out of a single premise located in Karnataka. Accordingly, we rely exclusively on our facilities at this manufacturing unit to earn revenues, pay our operating expenses and service our debt obligations. Any significant interruption or loss or shutdown of operations at our manufacturing unit at Karnataka would adversely affect our business. Our business activities may be subject to unexpected interruptions, including natural or man-made disasters. Our facilities and operations could be adversely affected by, among other factors, breakdown or failure of equipment, difficulties or delays in obtaining spare parts and equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, labour disputes, natural disasters, raw material shortages, fire, explosion and other unexpected industrial accidents and the need to comply with the directives of relevant government authorities.

Furthermore, any significant interruption to our operations directly or indirectly as a result of any industrial accidents, severe weather or other natural disasters could materially and severely affect our business, financial condition and results of operations. Similar adverse consequences could follow if war, or war-like situation were to prevail, terrorist attacks were to affect our related infrastructure, or if the Government of India were to temporarily take over the facility during a time of national emergency. In addition, any disruption in basic infrastructure, such as in the supply of electricity could substantially increase our manufacturing costs. Any disruption of our existing supply of infrastructure services such as power or water, our failure to obtain such additional supplies as required by us or an increase in the cost of such supplies may result in additional costs to us. In such situations, our production capacity may be materially and adversely impacted. In the event our facilities are forced to shut down for a significant period of time, our earnings, financial condition and results of operation would be materially and adversely affected.

***15. Inability to set / control the cost of sugarcane or the selling price of sugar may impact our profitability.***

Our profitability depends significantly on the cost of sugarcane, our raw material, and the selling price of sugar. We are neither able to set the cost of sugarcane nor the selling price for our sugar. The price we pay for sugarcane is determined by the Government of India and / or the State Government of Karnataka, where our manufacturing unit is located and we may be adversely affected by rising sugarcane prices, particularly in the event of a decrease in the price of sugar. We purchase all of the sugarcane that we use in our production of sugar from the independent sugarcane farmers. The Government of India and / or the State Government of Karnataka, where our manufacturing unit is located, annually declares the sugarcane procurement price. The procurement price is a minimum price we must pay to sugarcane farmers for sugarcane. The determination of the procurement price is not related to the prevailing market price of sugar and is only loosely related to the quality of sugarcane. Rising procurement price, particularly if sugar prices remain stable or decrease during the same period, may adversely affect our results of operations and financial condition.

We operate in the sugar industry where the market price for our products is cyclical, while the price at which we procure our raw materials is regulated. These pricing conditions cause our margins to fluctuate and may affect our financial condition, cash flows and results of operation. The sugar industry has historically been cyclical and sensitive to changes in supply and demand. The market in India has experienced periods of limited supply, causing sugar prices and industry profit margins to increase, followed by periods of excess production that result in oversupply, causing declines in sugar prices and industry profit margins. Fluctuations in demand and supply and as a result, the price of our products, occur for various reasons, including:

- changes in the availability and price of our primary raw material, sugarcane;
- variances in the production capacities of our competitors; and
- the availability of substitutes for the sugar products that we produce.

Stronger demand may result in higher prices for sugar. Profitable sugar manufacturers may make prompt payments to farmers who may in turn switch to cultivating sugarcane rather than other crops which have become relatively less profitable. An increase in sugarcane cultivation may lead to an increase in sugar production and a subsequent reduction in sugar prices, which may materially and adversely affect our results of operation and our financial condition.

***16. Our Company has not entered into any long-term contracts with any of its customers for sale of sugar and we typically operate on the basis of orders. Inability to maintain regular order flow would adversely impact our revenues and profitability***

Our Company has had long standing business relationships with various sugar customers and has been supplying our product to such customers for several years. However, we have not entered into any contracts with these customers and we cater to them on an order-by-order basis. As a result, our customers can terminate their relationships with us without any notice and, without consequence, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability because of fluctuations in demand for our manufactured sugar product. Our Company's customers have no obligation to place order with us and may either cancel, reduce or delay orders. The orders placed by our Company's customers are dependent on factors such as the customer satisfaction with the quality of sugar that our Company provides, varieties of sugar that our Company provides, fluctuation in demand for sugar and the customer's inventory management. Although we place a strong emphasis on quality and timely delivery of our product, in the absence of contracts, any sudden change in the buying pattern of buyers could adversely affect the business and the profitability of our Company.

***17. We are susceptible to product liability claims that may not be covered by insurance and may subject us to substantial expenditure thereby adversely affecting our reputation and if the claim is successful, could require us to pay substantial amounts.***

We face the risk of loss resulting from, and the adverse publicity associated with, product liability lawsuits, whether or not such claims are valid. We may be subject to claims resulting from our manufacturing defects or negligence in storage, packaging or handling which may lead to the deterioration of our products. Even unsuccessful product liability claims would likely require us to incur substantial expenses on litigation, divert management's time, adversely affect our goodwill and impair the marketability of our products.

We are liable for the quality of the products we manufacture, for the duration of their shelf life. Disputes over non-conformity of the products with prescribed quality standards or specifications including storage specifications are generally referred to independent testing laboratories. If any independent laboratory confirms that the products do not conform to the prescribed or agreed standards and specifications, we may be required to bear the expenses of replacing and testing such products, which could adversely affect our business, results of operations, cash flows and financial condition. Any proved defect in our products could also result in withdrawal of our license for manufacturing, storing and selling the products. Further, our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our Company, brand, or products or mishaps resulting from the use of our products, or any other unforeseen events could affect our reputation and our results from operations. Further, we do not have any insurance coverage for product liability and if we are to take the same, it may result in additional expense. From time to time, the sugar industry has experienced difficulty in obtaining desired product liability insurance coverage. If any product liability claim not covered by insurance were sustained against us, it could adversely affect our business, financial condition, results of operations and cash flows.

***18. While we take adequate care and follow all relevant safety measures, there is a risk of fire and other accidents, at our manufacturing unit. Any accidents are likely to result in loss of property of our Company and/or disruption in the manufacturing processes which may have a material adverse effect on our results of operations, cash flows and financial condition.***

Due to its inflammable nature of the raw materials and finished products manufactured by us, we might be exposed to fires or other industrial accidents. While our Company believes that it has necessary controls and processes in place, any failure of such systems, mishandling of hazardous chemicals or any adverse incident related to the use of these chemicals or otherwise during the manufacturing process or storage of products and certain raw materials, may cause industrial accidents, fire, loss of human life, damage to our and third-party property or cause environmental damage. If any industrial accident, loss of human life or environmental damage were to occur we could be subject to significant penalties, other actionable claims and, in some instances, criminal prosecution. In addition to adversely affecting our reputation, any such accidents, may result in a loss of property of our Company and/or disruption in our manufacturing operations entirely, which may have a material adverse effect on our results of operations and financial condition. In addition to the loss as a result of such fire or industrial accident, any shutdown of any of our manufacturing unit may result in us being unable to meet with our commitments, which will have an adverse effect on our business, results of operation and financial condition.

In the past, there were two incidents of accidents which occurred in the factory premises of our Company. On November 5, 2014, three of our employees were cleaning the drain of the oil chamber at the factory premises. However, out of the three, two employees expired while cleaning the drain of the oil chamber and third employee was injured. Our Company paid a compensation amount of ₹ 18,19,370 to both the employees who expired including to the employee who was injured towards his entire medical expenses. Further, on April 27, 2018, one of our employees died while opening the manhole of evaporator body at our factory premises. Our Company paid a compensation amount of ₹ 4,00,000. While our Company had taken all precautionary steps before engaging any employees for performing any cleaning work and no such incidents have occurred since then, however, we cannot ensure that such accidents will not occur in future.

Further, any fire or industrial accident, any shutdown of our manufacturing unit or any environmental damages will increase the regulatory scrutiny and result in enhanced compliance requirements including on use of materials and effluent treatment which would, amongst others, increase the cost of our operations. We cannot assure you that despite our best

efforts we will not face similar situations at our manufacturing unit which may result in significant loss to our Company and/or a disruption of our manufacturing operations. The loss incurred by our Company, though adequately insured, may or may not be recoverable through the insurance maintained by us. Such loss and/or disruption of our manufacturing operations may have a material adverse effect on our operations, cash flows and financial condition.

- 19. Any delays and/or defaults in customer payments could result in increase of working capital investment and/or reduction of our Company's profits, thereby affecting our operation and financial condition. Our Company requires significant amount of working capital for a continuing growth. Further, our inability to meet our working capital requirements may adversely affect our results of operations.**

Our financial performance and position are influenced by the creditworthiness of our customers. Under our business model, we supply products directly to customers without requiring advance payments or security deposits for orders placed. As a result, delays in customer payments may require us to make additional working capital investments. We cannot guarantee that payments from all or any of our customers will be received on time, or at all. If a customer defaults on a payment for an order on which we have invested substantial resources, or if an order is delayed, canceled, or not completed, it could have a material adverse impact on our financial results and overall financial health.

For the year ending March 31, 2025, as well as for the fiscal years 2024, 2023, and 2022, our trade receivables stood at ₹2882.31 lacs, ₹1843.00 lacs, ₹2132.74 lacs, and ₹3562.43 lacs, respectively. Notably, there were no outstanding debts for any of these periods. However, we cannot guarantee the timely receipt of all customer payments, as financial difficulties, business performance issues, or global economic downturns could impact their ability to fulfill payment obligations. If such events occur, our financial performance and cash flows may be adversely affected. That said, we have not experienced any instances of delayed customer payments in the past.

- 20. Adverse weather conditions, crop disease, pest attacks may adversely affect sugarcane crop yields and sugar recovery rates for any given harvest.**

Our sugar production depends on the volume and sucrose content of the sugarcane that is supplied to us. Crop yields and sucrose content depends primarily on the variety of sugarcane grown, the presence of any crop disease and weather conditions such as adequate rainfall and temperature, which vary. Adverse weather conditions have caused crop failures and reduced harvests and resulted in volatility in the sugar industry and consequently in our operating results. Flood, drought or frost can adversely affect the supply and pricing of the patterns, potential crop disease or the cultivation of certain sugarcane crop varieties will not reduce the amount of sugarcane or sugar that we can recover in any given harvest. Any reduction in the amount of sugar recovered could have a material adverse effect on our results of operations.

- 21. We require various regulatory approvals and licenses for the purpose of our business. Our inability to obtain such regulatory approvals and licenses for the purpose of our business in a timely manner or at all, or to comply with the terms and conditions of our existing regulatory approvals and licenses may have a material adverse effect on the continuity of our business and may impede our effective operations in the future.**

Our business operations require us to obtain and renew, from time to time, certain approvals, licenses, registrations and permits under central, state and local government rules in India, generally for carrying out our business and for our manufacturing facilities. As on the date of this Letter of Offer, our Company has all requisite registrations to run its business operations. A majority of these approvals are granted for a limited duration. The introduction of additional government control or newly implemented laws and regulations, depending on the nature and extent thereof and our ability to make corresponding adjustments, may adversely affect our business, results of operations and financial conditions. These laws and regulations and the way in which they are implemented and enforced may change from time to time and there can be no assurance that future legislative or regulatory changes will not have an adverse effect on our business, financial condition, cash flows and results of operations.

The approvals required by us are subject to numerous conditions and we cannot assure you that these would not be suspended or revoked in the event of non-compliance or alleged noncompliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business. In case we fail to comply with these requirements, or a regulator alleges we have not complied with these requirements, we may be subject to penalties and compounding proceedings.

- 22. We may not be able to protect our intellectual property.**

Our current name and logo is not owned or registered as a trade name or trademark by our Company under the provisions of the Trademarks Act, 1999 and therefore may be subject to counterfeiting or imitation which would adversely impact our reputation and lead to loss of customer confidence, reduced sales and higher administrative costs. Further, our Company does not enjoy the statutory protection according to a registered trademark. There can be no assurance that we will be able to register the trademark and the logo or that, third parties will not infringe our intellectual property, causing

damage to our business prospects, reputation and goodwill. If any of our unregistered trademarks or proprietary rights are registered by a third party, we may not be able to make use of such trademark or proprietary rights in connection with our business and consequently, we may be unable to capitalize on the brand recognition associated with our Company. We can neither assure you that we will be successful in such a challenge nor guarantee that eventually our name and logo will be registered in our name under the provisions of the Trademarks Act, 1999. As a result, we may not be able to prevent acts of counterfeiting or imitation of our name and logo and a passing off action may not provide sufficient protection until such time that registration is granted. We may be unable to prevent third parties for infringing or wrongly using our trademarks, logo, patents thereby causing damage to our business prospects, reputation and goodwill.

**23. *Our inability to receive or renew the necessary licenses, approvals and registrations in a timely manner or at all may lead to interruption of our Company's operations.***

We require certain statutory and regulatory approvals, licenses, registrations and permissions to operate our manufacturing unit, some of which have been granted for a fixed period of time and need to be renewed from time to time. We cannot assure you that in the near future there will not be any legal actions taken against us for the same.

Further, our licenses and approvals are subject to several conditions, and our Company cannot assure that it shall be able to continuously meet such conditions or be able to prove compliance with such conditions to statutory authorities, and this may lead to cancellation, revocation or suspension of relevant licenses, approvals and registrations. Failure by our Company to renew, maintain or obtain the required licenses or approvals, or cancellation, suspension, or revocation of any of the licenses, approvals and registrations may result in the interruption of our Company's operations and may adversely affect our business.

**24. *Our Company does not own the premises in which our registered office and corporate office are located and the same are on lease arrangement. Any termination of such lease and/or non-renewal thereof and attachment by property owner could adversely affect our operations.***

As on the date, our Registered Office has been taken on lease basis from Ganesh Shivashankarappa Shamanur, one of our Promoter and Director of our Company ("**Lessor**"). Before formal lease agreements were established, our Company had been using the property as its Registered Office solely on the basis of a no-objection letter and mutual consent given by Ganesh Shivashankarappa Shamanur. Thereafter, to formalize this arrangement, appropriate lease agreement was executed on June 24, 2025 for the Registered Office. Therefore, unless the lease agreement is renewed, upon termination of the lease, we are required to return these premises to the Lessor. Therefore, there can be no assurance that the term of the agreement will be renewed on commercially acceptable terms and in the event the Lessor terminates or does not renew the agreement, we are required to vacate the said premises where operational activities are carried out.

Additionally, our Corporate Office is currently occupied without a formal lease agreement or other documented agreement with the joint owners of the property Mr. S S Bakkesh, Mr. Ganesh Shivashankarappa Shamanur and Mr. S S Mallikarjun, who are the legal owners of the said property jointly, consequently we do not have any enforceable rights to occupy and continue using these premises. While there has been no conflict of interest in the past, we cannot assure you that there would not be any conflict of the interest in the future, in case the owners of the said property requires the said property for its own use, our Company will have to vacate the said premises and find out new premises. This situation could disrupt our business operations, adversely affect employee productivity, and result in additional costs relating to relocation, securing new premises, or legal disputes.

**25. *We are dependent on third party transportation providers for delivery of raw materials to us from our suppliers and delivery of our products to our customers. We have not entered into any formal contracts with our transport providers and any failure on part of such service providers to meet their obligations may adversely affect our business, financial condition and results of operation.***

To ensure smooth functioning of our manufacturing operations, we need to maintain continuous supply and transportation of the raw materials required from the supplier to our manufacturing unit or warehouses and transportation of our products from our unit or warehouses to our customers, which may be subject to various uncertainties and risks. We are significantly dependent on third party transportation providers for the delivery of raw materials to us and delivery of our products to our customers. Uncertainties and risks such as transportation strikes or delay in supply of raw materials and products is likely to have an adverse effect on our supplies and deliveries to and from our customers and suppliers. Additionally, raw materials and products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. A failure to maintain a continuous supply of raw materials or to deliver our products to our customers in a timely, efficient and reliable manner may adversely affect our business, results of operations and financial condition.

Further, we have not entered into any long-term agreements with our transporters for any of our manufacturing unit and the costs of transportation are generally based on mutual terms and the prevailing market price. In the absence of such agreements, we cannot assure that the transport agencies would fulfill their obligations or would not commit a breach of the understanding with us. In the event that the finished goods or raw materials suffer damage or are lost during transit, we may not be able to prosecute the agencies due to lack of formal agreements. Further, the transport agencies are not contractually bound to deal with us exclusively, we may face the risk of our competitors offering better terms or prices,

which may cause them to cater to our competitors alongside us or on a priority basis, which might adversely affect our business, results of operations and financial condition.

**26. *We face significant competition in our business from Indian sugar manufacturers, which may adversely affect our profitability.***

The sugar industry is highly competitive. Domestically, we compete with numerous small to medium size producers. Despite increased consolidation, the Indian sugar industry remains highly fragmented. Our major competitors in India are sugar mills based in the southern Indian state of Karnataka and nearby states. Further, excess sugar stocks may be dumped by competitors from other states into the northern India region markets, leading to excess supply and price drop. We also face substantial competition from potential competitors who may seek to manufacture the same or similar products as us in the particular area or competitors who are already manufacturing, distributing and selling products which we deal in. Additionally, we compete with existing sugar manufacturing unit on the basis of portfolio of our by-product offerings, product traits, including quality consistency, lower rejection ratio, as well as based on price, reputation, customer service and customer convenience. Some of our competitors may be large multinational companies that have significantly greater resources and access than those available to us. If we are unable to compete effectively, including in terms of pricing or providing quality products, our market share may decline, which could have a material adverse effect on our results of operations and cash flows.

**27. *Our Promoters, Directors and Key Managerial Personnel have interests in our Company other than reimbursement of expenses incurred or normal remuneration or benefits.***

Our Promoters, Directors and Key Managerial Personnel, may be deemed to be interested in our Company, in addition to the regular remuneration or benefits, reimbursements of expenses, Equity Shares held by them or their relatives, their dividend or bonus entitlement, benefits arising from their directorship in our Company. Our Promoters, Directors and Key Managerial Personnel may also be interested to the extent of any transaction entered into by our Company with any other company or firm in which they are directors or partners.

There can be no assurance that our Promoters, Directors, Key Management Personnel will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters and members of our Promoter Group will continue to exercise significant control over our Company, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Directors and our Key Management Personnel may take or block actions with respect to our business, which may conflict with the best interests of our Company or that of minority shareholders.

**28. *Our Promoters and members of the Promoter Group have significant control over the Company and have the ability to direct our business and affairs; their interests may conflict with your interests as a shareholder.***

After the completion of the Issue, our Promoters and the members of the Promoter Group are expected to hold approximately over 48% of the paid-up equity share capital of our Company assuming full subscription to the Rights Entitlement in the Issue. So long as the Promoters have a majority holding, they will be able to elect the entire Board and control most matters affecting us, including the appointment and removal of the officers of our Company, our business strategy and policies and financing. Further, the extent of the Promoters' shareholding in our Company may result in the delay or prevention of a change of management or control of our Company, even if such a transaction may be beneficial to the other shareholders of our Company.

**29. *As the securities of our Company are listed on a stock exchange in India, our Company and our Promoters are subject to certain obligations and reporting requirements under SEBI Insider Trading Regulations, SEBI Takeover Regulations and SEBI Listing Regulations. Any non-compliances/delay in complying with such obligations and reporting requirements in the future may render us/our Promoters liable to prosecution and/or penalties.***

Our Company and our Promoters are subject to certain obligations and reporting requirements under SEBI Insider Trading Regulations, SEBI Takeover Regulations and SEBI ICDR Regulations such as submission of interest or holding by the directors and officers of our Company etc. Though our Company and our Promoters endeavour to comply with all such obligations/reporting requirements, there have been certain instances of non-compliance and delays in complying with such obligations/reporting requirements. Any such delays or non-compliance would render our Company/our Promoters to prosecution and/or penalties. There have been few instances in the past three preceding financials years, our Company was found in non-compliance with certain corporate governance norms provided under Regulation 23(9) and Regulation 13(3) of the SEBI Listing Regulations. Accordingly, BSE has imposed a fine of ₹ 0.24 Lakhs, ₹ 0.33 Lakhs and ₹ 2.00 Lakhs on our Company for such non-compliance. As our Company had not paid the fine within due time, consequently the demat accounts of all our Promoters' and entities as mentioned in the Shareholding pattern by our Company had been frozen. We have accordingly paid the penalty amount to BSE on August 22, 2022, September 19, 2022 and January 25, 2023, respectively, for the aforesaid non-compliances. Further, in one of the cases due to late payment of the fine levied by BSE, the demat accounts of some of our Promoters' had been frozen, however post the

payment of fines, all the frozen demat accounts of Promoters were unfrozen which were frozen by the Depositories. Accordingly, as on date our Company is in compliance with SEBI Listing Regulations. Any non-compliance with the applicable laws, rules and regulations in the future may subject us to regulatory action, including penalties, suspension of trading of Equity Shares or even compulsory delisting of our Equity Shares, which may not only materially and adversely affect our business, prospects and reputation but also the shareholder.

**30. We have certain contingent liabilities, and our financial condition and profitability may be adversely affected if any of these contingent liabilities materialize.**

Our contingent liabilities and commitments (to the extent not provided for) as disclosed in the notes to our Audited Financial Information for the financial years 2025, 2024 & 2023 are as follows:

(₹ in lacs)

Particulars	As of 31-03-2025	As of 31-03-2024	As of 31-03-2023
<b>i) Contingent liabilities:</b>			
a) Company has given corporate guarantee on Harvesting and Transportation loan against the loan to farmer contractors	2,800.00	3,598.00	4,000.00
b) GST/Customs/Service Tax/ Income Tax demands against which the Company has filed appeals	608.85	391.05	199.34

Furthermore, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the future.

**31. We have in past entered into related party transactions and we may continue to do so in the future.**

As of March 31, 2025, we have entered into several related party transactions with our Promoters, individuals and entities forming a part of our promoter group relating to our operations. All the related party transactions have been carried out on arm's length basis in accordance with the Companies Act and other applicable regulations. In addition, we have in the past also entered into transactions with other related parties.

While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we may not have achieved more favourable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

**32. The agreements executed by our Company with lenders for financial arrangements contain restrictive covenants for certain activities and if we are unable to get their approval, it might restrict our scope of activities and impede our growth plans.**

We have entered into agreements for our borrowings with certain lenders. These borrowings include secured fund based and non-fund based facilities. These agreements include restrictive covenants which mandate certain restrictions in terms of our business operations such as formulation of any scheme of amalgamation or reconstruction, declaring dividends, approach capital market for mobilizing additional resources either in the form of debt or equity, further expansion of business, granting loans to directors, repaying unsecured loans availed from Promoters and third parties, undertake guarantee obligations on behalf of any other borrower, which require our Company to obtain prior approval of the lenders for any of the above activities. We have received No Objection Certificates (NOCs) from all our lenders with whom our Company has entered into an agreement, for the proposed issuance of equity shares through this Issue. We cannot assure you that our lenders will provide us with these approvals in the future. Further, some of the financing arrangements include covenants which mandate us to maintain total outside liabilities and total net worth up to a certain limit and certain other liquidity ratios. A default under one of these financing agreements may also result in cross-defaults under other financing agreements and result in the outstanding amounts under such financing agreements becoming due and payable immediately. This might have an adverse effect on our cash flows, business, results of operations and financial condition.

**33. In addition to the existing indebtedness our Company, may incur further indebtedness during the course of business. We cannot assure that our Company would be able to service the existing and/ or additional indebtedness.**

As on June 30, 2025 the total fund based indebtedness of our Company is ₹ 26,719.77 lacs. In addition to the indebtedness for the existing operations of our Company, may incur further indebtedness during the course of their business. We cannot assure you that our Company will be able to obtain further loans at favourable terms. Increased borrowings, if any, may adversely affect our debt-equity ratio and our ability to borrow at competitive rates. In addition, we cannot assure you that the budgeting of our working capital requirements for a particular year will be accurate. There may be situations where we may under-budget our working capital requirements, which may lead to delays in arranging additional working capital requirements, loss of reputation, levy of liquidated damages and can cause an adverse effect on our cash flows.

Any failure to service the indebtedness of our Company or otherwise perform our obligations under our financing agreements entered with our lenders or which may be entered into by our Company, could trigger cross default provisions, penalties, acceleration of repayment of amounts due under such facilities which may cause an adverse effect on our business, financial condition and results of operations.

**34. *Our Company has availed certain unsecured loans from one of our Promoters, Ganesh Shivashankarappa Shamanur, which are callable in nature.***

As on July 25, 2025, our Company has outstanding unsecured loans aggregating to ₹ 8,812.01 lacs, which have been extended by one of our Promoters, Ganesh Shivashankarappa Shamanur which may be recalled at any time. We cannot assure you that our Promoter will not demand repayment of unsecured loans extended to us. In the event, our Promoter seeks a repayment of the unsecured loans, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. If we are unable to arrange for any such financing arrangements, we may not have adequate working capital to carry out the operations or complete our ongoing operations. Therefore, any such demand may adversely affect our business, financial condition and results of operations.

**35. *Our future fund requirements, in the form of further issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the Shareholders depending upon the terms on which they are eventually raised.***

We may require additional capital from time to time depending on our business needs. Any further issue of Equity Shares or convertible securities would dilute the shareholding of the existing Shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing Shareholders. If such funds are raised in the form of loans or debt or preference shares, then it may substantially increase our fixed interest/dividend burden and decrease our cash flows, thus adversely affecting our business, results of operations and financial condition.

**36. *Our success largely depends upon the knowledge and experience of our Promoters, Directors and our Key Managerial Personnel. Loss of any of our Directors and key managerial personnel or our ability to attract and retain them could adversely affect our business, operations and financial condition.***

The growth and success of our Company's future significantly depends upon the experience and continued services and the management skills of our Promoters, Key Managerial Personnel and the guidance of our Directors for development of business strategies, monitoring its successful implementation and meeting future challenges. We believe the expertise, experience and continued efforts of our Key Managerial Personnel and their inputs are valuable to for the operations of our Company. Our future success and growth depend largely on our ability to attract, motivate and retain the continued service of our highly skilled management personnel. Our Company has never been faced with a challenge of high rate of attrition of our Key Management Personnel in the past, however, any attrition of our experienced Key Managerial Personnel, would adversely impact our growth strategy. We cannot assure you that we will be successful in recruiting and retaining a sufficient number of personnel with the requisite skills to replace those Key Managerial Personnel who leave. In the event we are unable to motivate and retain our key managerial personnel and thereby lose the services of our highly skilled Key Managerial Personnel may adversely affect the operations, financial condition and profitability of our Company and thereby hampering and adversely affecting our ability to expand our business.

**37. *Stringent environmental, health and safety laws and regulations or stringent enforcement of existing environmental, health and safety laws and regulations may result in increased liabilities and increased capital expenditures.***

Our operations are subject to environmental, health and safety and other regulatory and/or statutory requirements in the jurisdictions in which we operate. We are required to comply with central, state and local environmental laws and regulations governing the protection of the environment and occupational health and safety, including laws regulating the generation, storage, handling, use and transportation of waste material, the emission and discharge of waste materials into soil, air or water, and health and safety of employees. We are also required to obtain and comply with environmental permits for certain of our operations. There can be no assurance that we will at all times be in complete compliance with such laws, regulations and permits.

**38. *We engage contract labour for carrying out certain of our operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired default on their obligations, and such obligations could have an adverse effect on our results of operations.***

We appoint independent contractors who in turn engage on-site contract labour for performance of certain of our operations in India. Although we do not engage these laborers directly, we may be held responsible for any wage payments to be made to such laborers in the event of default by such independent contractors. Any requirement to fund their wage requirements or other such difficulties in managing contract labour may have an adverse impact on our results of operations.

**39. *Our operations can be adversely affected in case of industrial accidents at our manufacturing unit. Any fire or mishap or accidents of such nature at the Company's facilities could lead to accident claims and damage and loss of property,***

***inventory, raw materials, etc. Our inability to procure and/or maintain adequate insurance cover in connection with our business may adversely affect our operations and profitability.***

Our manufacturing process requires the use of machines, which makes the labour employed at our manufacturing unit prone to accidents that occur during the course of our operations resulting in personal injuries causing permanent disability or even death. Due to its combustible nature of the raw materials and finished products manufactured by us, we may be exposed to fires or other industrial accidents and every stage from procurement, processing, storage and transportation to trading is fraught with an imminent risk of loss by fire. With the use of chemicals, boilers, large volume of air for material handling, etc. the risk of fire hazard increases exponentially. The stocks of finished goods, raw materials, godowns and the main manufacturing area are more prone to such accidents, which could cause substantial loss to our machinery, thus hampering our business operations. If there occurs an accident or mishap due to fire, it could adversely affect our results of operations and financial position.

We have obtained certain insurance policies such as the aircraft hull liabilities insurance policy, machinery insurance policy and industrial all risks insurance policy, which insures our aircraft, manufacturing unit, plant and machinery, etc. Although, we have taken appropriate insurance cover, there can be no assurance that our insurance policies will be adequate to cover the losses which we may incur due to the occurrence of an accident or a mishap.

There are many events that could cause significant damages to our operations, or expose us to third-party liabilities, whether or not known to us, for which we may not be insured or adequately insured, which in turn may expose us to certain risks and liabilities. We have adopted adequate safety measures; however, we cannot assure you that, in the future no such cases will be instituted against our Company, alleging that we were negligent, or we did not provide adequate supervision therefore, holding us liable for injuries that were suffered during the manufacture of our products. In the event any such accidents take place in the manufacturing unit of our Company, we may get involved in litigation or other proceedings, or be held liable in any litigation or proceedings, incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business and results of operations. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance had been availed. Further, there can be no assurance that any claim under the insurance policies maintained by us will be honored fully, in part, or on time. If we were to incur a significant liability for which we were not fully insured, it may adversely affect our results of operations and financial position.

***40. Our Company is subject to foreign exchange control regulations which can pose a risk of currency fluctuations.***

Our Company is involved in various business transactions with international clients and has to conduct the same in accordance with the rules and regulations prescribed under FEMA. Due to non-receipt of such payments in a timely manner, our Company may fail to adhere to the prescribed timelines and may be required to pay penalty to the appropriate authority or department to regularize the payment. Our international operations (export sales) make us susceptible to the risk of currency fluctuations, which may directly affect our operating results. In case we are unable to adhere to the timelines prescribed under the applicable laws or are unable to mitigate the risk of currency fluctuation, it may adversely affect our business, results of operations, financial conditions and cash flows.

***41. Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.***

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. Our business is working capital intensive and we are required to obtain consents from certain of our lenders prior to the declaration of dividend as per the terms of the agreements executed with them. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations.

***42. Increased losses due to fraud, employee negligence, theft or similar incidents may have an adverse impact on us.***

Our business and the industry in which we operate are vulnerable to the problem of pilferage by employees, damage, misappropriation of cash and inventory management and logistical errors. An increase in product losses due to such factors at our place of operation may require us to install additional security and surveillance equipment and incur additional expenses towards inventory management and handling. We cannot assure you whether these measures will successfully prevent such losses. Further, there are inherent risks in cash management as part of our operations, which include theft and robbery, employee fraud and the risks involved in transferring cash to banks. Additionally, in case of losses due to theft, financial misappropriation, fire, breakage or damage caused by other casualties, we cannot assure you that we will be able to recover from our insurers the full amount of any such loss in a timely manner, or at all. In addition, if we file claims under an insurance policy it could lead to increases in the insurance premiums payable by us or the termination of coverage under the relevant policy.

## ISSUE SPECIFIC RISKS

- 43. *Our Company will not distribute the Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.***

Our Company will dispatch the Letter of Offer, Rights Entitlement Letter and Application Form (the “**Offering Materials**”) to such Shareholders who have provided an address in India for the service of documents. The Offering Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e- mail. Presently, there is a lack of clarity under the Companies Act, 2013, and the rules thereunder, with respect to the distribution of Offering Materials to retail individual shareholders in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions.

- 44. *SEBI has, by way of circular dated March 3, 2025, streamlined the process of rights issues. You should follow the instructions carefully, as stated in the SEBI Rights Issue Circular and in this Letter of Offer.***

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circular dated March 3, 2025, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see “*Terms of the Issue*” on page 64.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialized form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

- 45. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form (“Physical Shareholder”) may lapse in case they fail to furnish the details of their demat account to the Registrar.***

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circular dated March 3, 2025 and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see “*Terms of the Issue*” on page 64. In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only.

In accordance with the circular SEBI Circular SEBI/HO/CFD/DIL2/CIR/P/2020/13 dated March 3, 2025, the credit of Rights Entitlement and Allotment of Rights Equity Shares shall be made in dematerialized form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than 2 (two) Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least 1 (one) day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar within 2 (two) Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 03, 2018 issued by the SEBI, with effect from April 01, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

- 46. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.***

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them

may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see “*Terms of the Issue*” on page 64.

**47. *Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

**48. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

**49. *There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.***

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchange until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchange. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

**50. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.***

Under the Companies Act, any company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

**51. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by

equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

***52. Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.***

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

***53. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

## **EXTERNAL RISK FACTORS**

***54. Natural disasters and health epidemics could have a negative impact on the Indian economy, damage our facilities and also destroy the outlook of our Company.***

Natural disasters such as floods, earthquakes, famines and pandemics have in the past had a negative impact on the Indian economy, with the most recent example being the global outbreak of COVID-19. If any such event were to occur, our business could be affected due to the event itself or due to the inability to effectively manage the effects of the particular event. Potential effects include the damage to infrastructure, damage to our intangible assets and the loss of business continuity. In the event that our facilities are affected by any of these factors, our operations may be significantly interrupted, which may materially and adversely affect our business, cash flows, financial condition and results of operations.

***55. Significant differences exist between Ind AS, Indian GAAP and other accounting principles, such as US GAAP and International Financial Reporting Standards ("IFRS"), which investors may be more familiar with and consider material to their assessment of our financial condition.***

Ind AS differs from other accounting principles with which prospective investors may be familiar, such as IFRS and U.S. GAAP. We have not attempted to quantify the impact of U.S. GAAP or IFRS on the financial data included in this Letter of Offer, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or IFRS. U.S. GAAP and IFRS differ in significant respects from Ind AS. Accordingly, the degree to which the Ind AS financial statements, which are included in this Letter of Offer will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Letter of Offer should accordingly be limited.

***56. Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.***

The Indian economy is influenced by economic developments in other countries. These factors could depress economic activity which could have an adverse effect on our business, financial condition and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

**57. *A slowdown in economic growth in India could cause our business to suffer.***

We are incorporated in India, and all of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing in India;
- prevailing income conditions among Indian consumers and Indian corporations;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighboring countries;
- prevailing regional or global economic conditions; and
- other significant regulatory or economic developments in or affecting India

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

**58. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects and results of operations.***

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

The Government of India has issued a notification dated September 29, 2016 notifying Income Computation and Disclosure Standards ("ICDS"), thereby creating a new framework for the computation of taxable income. The ICDS became applicable from the assessment year for Fiscal 2018 and subsequent years. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. In addition, ICDS shall be applicable for the computation of income for tax purposes but shall not be applicable for the computation of income for minimum alternate tax. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition.

- the General Anti Avoidance Rules ("GAAR") have been made effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.
- a comprehensive national GST regime that combines taxes and levies by the Central and State Governments into a unified rate structure, which came into effect from July 1, 2017. We cannot provide any assurance as to any aspect of the tax regime following implementation of the GST. Any future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. If, as a result of a particular tax risk materializing, the tax costs associated with certain transactions are greater than anticipated, it could affect the profitability of such transactions.

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

Any increase in taxes and levies, or the imposition of new taxes and levies in the future, could increase the cost of production and operating expenses. Taxes and other levies imposed by the central or state governments in India that affect our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. The central and state tax scheme in India is extensive and subject to change from time to time. Any adverse changes in any of the taxes levied by the central or state governments may adversely affect our competitive position and profitability.

**59. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.***

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance and the trading price of the Equity Shares.

**60. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.***

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

**61. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.***

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

**62. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.***

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

**63. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business.

Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

**64. *We are subject to regulatory, economic, social and political uncertainties and other factors beyond our control.***

We are incorporated in India and we conduct our corporate affairs and our business in India. Consequently, our business, operations, financial performance will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence our results of operations may include:

- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian customers and Indian corporations;
- epidemic or any other public health in India or in countries in the region or globally, including in India's various neighboring countries;
- hostile or war like situations with the neighboring countries;
- macroeconomic factors and central bank regulation, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- decline in India's foreign exchange reserves which may affect liquidity in the Indian economy;
- downgrading of India's sovereign debt rating by rating agencies; and
- difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms and/or a timely basis.
- Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy or certain regions in India, could adversely affect our business, results of operations and financial condition and the price of the Equity Shares.

**65. *Financial instability in other countries may cause increased volatility in Indian financial markets.***

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business, our future financial performance and the prices of the Equity Shares.

The recent outbreak of Novel Coronavirus has significantly affected financial markets around the world. Any other global economic developments or the perception that any of them could occur may continue to have an adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

## **ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO DAVANGERE SUGAR COMPANY LIMITED (“THE COMPANY AND ITS SHAREHOLDERS”)**

The information provided below sets out the possible special direct tax & indirect tax benefits available to the Company and its shareholders in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the subscription, ownership and disposal of equity shares, under the current tax laws presently in force in India. Several of these benefits are dependent on the Company and its shareholders fulfilling the conditions prescribed under the relevant tax laws. Hence, the ability of the Company and the shareholders of the Company to derive the direct and indirect tax benefits is dependent upon their fulfilling such conditions, which is based on business imperatives the Company may face in the future and accordingly, the Company and the shareholders of the Company may or may not choose to fulfil. Further, certain tax benefits may be optional, and it would be at the discretion of the Company or the shareholders of the Company to exercise the option by fulfilling the conditions prescribed under the Tax laws.

The following overview is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

The tax benefits stated below are as per the Income tax Act, 1961 (“IT Act”) as amended from time to time and applicable for financial year 2024-25 relevant to assessment year 2025- 26 and Indirect Tax Laws as amended from time to time and applicable for financial year 2024-25.

### **I. Under the IT Act**

#### **1. Special tax benefits available to the Company under the Act**

##### **a) Lower Corporate Tax Rate under section 115BAA**

A new Section 115BAA has been inserted by the Taxation Laws (Amendment) Act, 2019 (“the Amendment Act 2019”) granting an option to domestic companies to compute corporate tax at a reduced rate of 25.17% (22% plus surcharge of 10% and cess of 4%) from the Financial Year 2019-20, provided such companies do not avail specified exemptions/incentives ( i.e. deduction under section 10AA, 32(1)(iia), 33ABA, 35 (2AB), 80-IA etc.)

The Amendment Act, 2019 also provides that domestic companies availing such option will not be required to pay Minimum Alternate Tax (“MAT”) under section 115JB. The CBDT has further issued Circular 29/2019 dated Oct 02, 2019 clarifying that since the MAT provisions under section 115JB itself would not apply where a domestic company exercises option of lower tax rate under section 115BAA, MAT credit would not be available. Corresponding amendment has been inserted under section 115JAA dealing with MAT credit.

### **B. Deductions from Gross Total Income**

#### **Section 80JJAA- Deduction in respect of Employment of new employees**

company or a foreign company or a business trust, there shall, in accordance with and subject to the provisions of this section, be allowed in computing the total income of such domestic company, a deduction of an amount equal to so much of the amount of income by way of dividends received from such other domestic company or foreign company or business trust as does not exceed the amount of dividend distributed by it on or before the due date. ### ***RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES***

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2017 (“**FDI Circular 2017**”), which, with effect from August 28, 2017, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on August 28, 2017. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2017 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails. The Consolidated FDI Policy, issued by the DIPP, consolidates the policy framework in place as on August 27, 2017, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore the Consolidated FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non- resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI. As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue.

*The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations*
